The World of Biodiesel at Your Fingertips

From the April 2008 Issue

## Colorado Springs takes honor

In January, Colorado Springs was named Government Fleet Magazine's top U.S. city with a biodiesel fleet. The city fleet was also 17th in all nationwide public sectors with alternative fuel fleets. "In terms of biodiesel use, Colorado Springs was up there at the top," said Cindy Brauer, managing editor of the magazine. Blue Sun Biodiesel LLC is the city's fuel provider. Jeff Probst, president of Blue Sun, said his company is pleased to be a part of the success.
